

## COURSE TITLE

# DIGITAL COMPETENCE IN EDUCATION

---

## Presentation

Nowadays it is undeniable that ICTs have transformed most of the processes in any field. Education is no exception. Meraki's trainers have extensive experience in the use of digital tools in any facet of the teaching function. From managing the staff's work to optimising the creation of documents and making the most of teachers' time, to creating enriching activities for the classroom that require the use of new technologies.

The **objectives** of the course are:

- To get a good understanding of where and how ICTs could improve our performance at school.
- To be able to select the more suitable tools according to our needs.
- To learn and practice in how to use those tools.

## Target group

The training course is addressed to primary and secondary school teachers, VET teachers, VET trainers, adults' teachers,

## Course language

This course can be provided both in English and Spanish.

## Methodology

The methodology used in the course consists mostly on practical tasks with the teacher's explanation of specific contents related to the objectives of the course. Constant feedback from the teacher will ensure that the concepts, tools and methods are acquired by all participants.
